

LEON MANHIMANZI

SOFTWARE ENGINEER

📍 Harare, Zimbabwe ✉ leontmanhimanz@gmail.com ☎ +263 77 145 3985 🌐 www.leonmanhimanzi.co.zw

PROFILE INFO

Recent Computer Science graduate with over two years of practical experience in software development gained through internship, part-time, and full-time roles. Experienced in designing and developing responsive web applications using React, TypeScript, and modern frontend technologies, while collaborating with teams to deliver business-critical solutions. Strong foundation in software engineering principles, networking, problem-solving, and system development, with a commitment to continuous learning and professional growth.

EXPERIENCE

2025 - PRESENT

Muzukuru Funeral Streaming

FullStack Web Developer

- Develop and maintain full-stack web applications using modern frontend and backend technologies.
- Design and implement APIs, database integrations, and business workflows.
- Build scalable features across internal and customer-facing platforms.
- Collaborate with stakeholders to translate business requirements into technical solutions.
- Optimize application performance, reliability, and user experience.

2024 - 2025

Muzukuru Funeral Streaming

Software Engineering Intern

- Served as the lead frontend developer for the Muzukuru Management System (MMS), an internal platform used to manage funeral service operations.
- Assisted with frontend development, system testing, bug fixing, and feature implementation across multiple company products.
- Provided networking support for funeral livestreams and virtual events, ensuring reliable internet connectivity and streaming performance.
- Configured and monitored networking equipment during live broadcasts.
